

# Go-Hawk Tech Talk

High School Student

## Broken iPad

Have you broken your iPad, and need to have it fixed? Turn your iPad into the main office. Before you turn it in, make sure you have disabled any lock codes on the iPad and backed your iPad up to iCloud. You can expect your iPad to be fixed in typically 1-2 school days. When it is finished, it will be returned to the main office.

## Digital Citizenship Campaign

Through the month of February, We are having a Digital Citizenship Campaign. We are asking the High School Students to change their lock screen on their iPad to an image that represents your commitment to cyber safety. We are also including a Digital Citizenship Tip of the Day and a question in the announcements, if you send a response to Mrs. Chopard, you will be entered into a weekly \$10 iTunes gift card drawing.

## App of the Month

30/30  
Price: FREE

30/30 is a great time management app. With this app you can create a timed out schedule on what you need to accomplish. This app is simple to use and very useful. You can create a list of the task you wish to complete, and the time period to complete them in. To keep you even more on task once you start the timer, you only see the task you are currently working on and how much more time you have left.

## How to Stay on Track

While trying to do your homework, use the "Do Not Disturb" feature to keep you focused on your work.
