

December 2014

Go - Hawk Tech Talk

Elementary Teacher Edition

90%

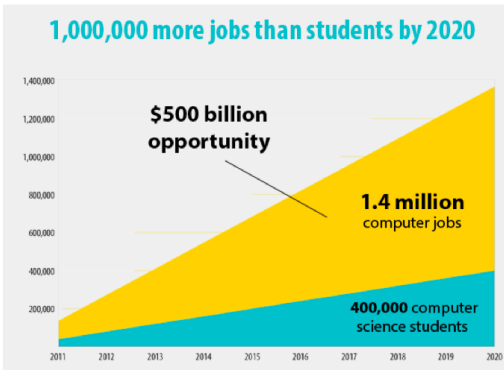

of schools **DON'T** offer Computer Programming...

WSR DOES!

BUT

8

ONLY HS students are currently enrolled in Computer Programming!

Hadi and Ali Partovi, code.org

GLOBAL EVENT

HOUR OF CODE

When: Anytime - Dec. 8-14

Encourage students to spend one hour coding during your class or indoor recess. Use the Angry Bird or Frozen tutorials found at www.code.org

Earn 2 Grad Credits for Using Technology

Register for the WSR-Created Course:
The Tech-Integrated Classroom

"One of the best things about the course is that the projects are directly **aligned to the teaching standards**. It will make it easy to use them in my BOE. Also, they are things that we are already wanting to do in the classroom, but now we are getting credit for it as well." - Bev Anderson, 5th Grade

"This course **encourages collaboration** throughout the district and pushed me to incorporate tech into my classroom in new ways. My students have greatly benefited from my enrollment in this course!" - Jess Heying, 4th Grade at Southeast

"I enjoyed the course because it doesn't add too much to your already hectic day of teaching. You just **enhance** the teaching you're doing by using technology in your classroom." - Josh Meier, PE

"Working with others expanded my thinking, making my use of the tech tools deeper. Getting to see examples from my peers made it even better, gave me a real picture of what it would look like in a classroom. The game format was fun too! I like having **choices for assignments**, I could do what would be **meaningful to me** and to my students." - Sara Nuss, Kindergarten at West Cedar

COURSE DETAILS

This is a hybrid course: online with 4 face-to-face meetings:

- Jan. 12th - Informational Meeting
- Jan. 26th, Feb. 23rd, March 23rd
